

BONALDO

Bardot

Spherical elements are paired with squared silhouettes to create Bardot, the design lamp which, like its namesake actress, symbolises timeless beauty thanks to its refined geometric structure. The lamp is enhanced by the stand and globe in metal, for which the precious matt brass finish has been chosen; the wide lampshade consists of a transparent glass globe that allows maximum brightness. Bardot stands out on account of its thin support stem, available in the elegant lead or bronze finishing, which combines perfectly with the other components of the lamp. The collection, consisting of a design table lamp and two floor lamps with different heights, makes it possible to create interesting coordinated environments.
